US Justice Dept Attorneys face rejection of US request to extradite UK hacker Lauri Love

US Department of Justice

United States Attorney Paul J Fishman, New Jersey

United States Attorney Nicholas P Grippio, New Jersey

United States Attorney Ryan K Dickey, Virginia

United States Attorney Carmen Ortiz, Boston

Re: Rejection of US extradition request for Mr Lauri Love of Suffolk UK

You are not getting your hands on Mr Lauri Love, you have wasted your time.

The long history of trans-national crimes, terrorist & extortion acts, the suborning of US Attorney Patrick Fitzgerald & admitted bribery of US federal judges, with implicit criminal threats against UK officials themselves, long indulged by Carmen Ortiz in Boston & by bribery sponsor & ex-AG Eric Holder, has now come back to haunt you.

Bribery & extortion & criminally harassing terrorist e-mails to Europe, creation of fraudulent documents to deceive UK officials, fake US 'legal proceedings', by the very same US fed judges who can be amongst those putting Lauri Love on trial ... With Ortiz not only personally indulging international terrorist acts targeting the UK, but also herself being effectively a murderess of hacker Aaron Swartz, whose induced death (of the 'suicide' type exactly as I was threatened with, by USA federal-judge-backed terrorists), now is a clear threat to Mr Love as UK officials & judges can see.

The enclosed files from the offices of the UK government ministries, London barristers & solicitors, and also a filing with the UK courts, will spell it out for you. Be sure you see both files, the one addressed to the UK ministers & the one addressed to the US Embassies, Secretary of State John Kerry & US Atty General Loretta Lynch - the latter has the better summary of the terrorist acts which DOJ fails to prosecute.

The Polish citizen your criminal USA regime terrorised & harassed for so long
