

Global Debt Facility

Wednesday, October 4, 2017

I was just watching the DCTV segment that I uploaded last night.

<https://youtu.be/SNg2xomF3es> YouTube is interfering with the clip talking about General Dunford's treason that starts 10 minutes in. The teleprompter for that clip was from the DCTV segment called "Whistleblowing" that aired May 31, 2016.

I want to show you the script for that clip:

The Battle Against the Network of Global Corporate Control.

There have been many victories. One victory was when General Dunford, (the Chair of the Joint Chiefs of Staff who thinks he is above the law and has the right to be a dictator to follow instructions from the Network of Global Corporate Control) had erased my response to Anna von Reitz from my computer. Three hours later someone put it back and I could show how Anna von Reitz had failed in her attempt to steal the gold in the Global Debt Facility for the Network of Global Corporate Control. Because this is a sting operation, the agents that were trying to help von Reitz also were exposed: Benjamin Fulford, Field McConnell and the Abel Danger operation.

One of my favorite "tweets" <https://s3.amazonaws.com/khudes/Twitter2.28.16.pdf> mentioned this dirty trick, and listed a few other dirty tricks of the Network of Global Corporate Control's, including a warrant for my arrest, signed by Bertrand Badré, Managing Director and Chief Financial Officer of the World Bank. That document, which Badré signed on February 15, 2016, also stated that he was dissolving the Global Debt Facility in order to steal the world's assets from the world's peoples. Badré was Acting President of the World Bank on that arrest warrant. Badré has left the World Bank.

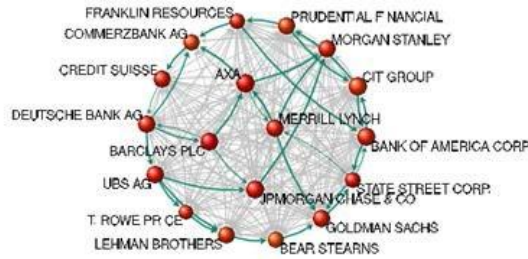

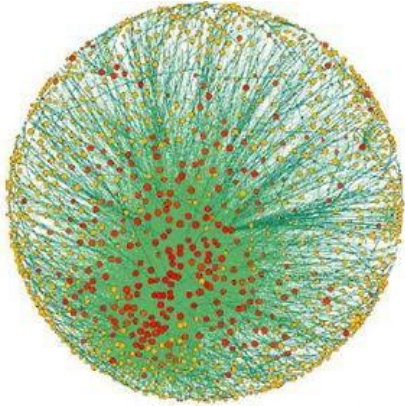

I knew this was going to be a battle that could be won because the power transition model from the US Department of Defense predicted that a coalition for the rule of law would form and that this coalition is stronger than the Network of Global Corporate Control.

The lies of the Network of Global Corporate Control are exposed, and the Network is exposed. The Network of Global Corporate Control requires secrecy in order to continue in power, and this is not there. Vitali, Glattfelder and Battiston showed the existence of the Network of Global Corporate Control in 2012.

Youtube is directing my viewers to the Banking Cartel's disinfo. I took a screenshot that you can see at the end of this tweet. I also want to show you my tweet from June 19th 2015 so you can see what I have been telling the people in charge of the US' monetary gold reserves all along. These people don't like dealing with traitors like General Dunford and Donald Trump.

To: Development Committee

I have been in contact with the Executive Directors about accessing the nations' monetary gold reserves in the Global Debt Facility. The United States is in an interregnum; the officials from the US Treasury Department have no authority to represent the United States of America. They are employees of the Network of Global Corporate Control http://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf and do not speak for the US citizenry, who are returning to their original Constitution pursuant to Article V thereof.

As you can see from the attached, the County Executives of America are standing in for the citizenry of the United States during this interregnum.

Sincerely,

Karen Hudes
