THE EXPOSÉ

BREAKING NEWS

U.S. DOD issued contract for 'COVID-19 Research' in Ukraine in 2019

BY THE EXPOSÉ ON JULY 9, 2023 • (25 COMMENTS)

The world first started to hear about a novel coronavirus in early January 2020, with reports of an alleged new pneumonia like illness spreading across Wuhan, China. However, the world did not actually know of Covid-19 until February 2020, because it was not until the 11th of that month that the World Health Organisation officially named the novel coronavirus disease as Covid-19.

So with this being the official truth, why does United States Government data show that the U.S. Department of Defense (DOD) awarded a contract on the 12th November 2019 to Labyrinth Global Health INC. for 'COVID-19 Research', at least one month before the alleged emergence of the novel coronavirus, and three months before it was officially dubbed Covid-19?

The shocking findings however, do not end there. The contract awarded in November 2019 for 'COVID-19 Research' was not only instructed to take place in Ukraine, it was in fact part of a much larger contract for a 'Biological threat reduction program in Ukraine'.

The Government of the United States has a website called '[USA Spending \(https://www.usaspending.gov/\)](https://www.usaspending.gov/)', an official open data source of federal spending information. According to the site as of 12th April 2021 the US Government has spent a mind-blowing \$3.63 trillion "in response to COVID-19". But that's not the only information on Covid that can be found within the site.

The federal government has spent \$3.63 trillion in response to COVID-19.

[View all COVID-19 spending](#)

USAspending is the official open data source of federal spending information.

We track how federal money is spent in communities across America and beyond. Learn more about government spending through interactive tools that explore elements of the federal budget, such as federal loan, grant, and contract data.

Hidden within the 'Award Search' are details on a contract awarded by the Department of Defense to a company named '[Black & Veatch Special Projects Corp](https://www.bv.com/)', which is allegedly "a global engineering, procurement, consulting and construction company specialising in infrastructure development".

The contact was awarded on September 20th, 2012 and is described as "Professional, Scientific, and Technical Services". Obviously this is very vague and most likely of little interest to anyone who happens to stumble across it. But there is something contained deep within the details that should be of interest to anyone and everyone.

The 'Award History' for the contract contains a tab for 'Sub-Awards' detailing the recipients, action date, amount, and very brief description for 115 Sub-Award transactions. Most of the Sub-Awards are extremely mundane for things such as "laboratory equipment for Kyiv", or "office furniture for Kyiv".

Total Count of Sub-Award Transactions: **115** Total Amount of Sub-Awards: **\$107.15 million** Percent of Prime Award Obligated Amount: **136.9%**

Why did the Department of Defense pay a company that is allegedly “a global engineering, procurement, consulting and construction company specialising in infrastructure development”, to help implement a “Biological threat reduction program in Ukraine”?

And why did both the DOD and said company then pay Labyrinth Global Health INC to carry out COVID-19 research in Ukraine at least one month before the alleged emergence of the novel coronavirus, and three months before it was officially dubbed Covid-19?

Founded in 2017, [Labyrinth Global Health](https://www.labyrinthgh.com/team) (<https://www.labyrinthgh.com/team>) is allegedly a “women-owned small business with deep expertise and a proven track record supporting initiatives for scientific and medical advancement.”

They describe themselves as “a multicultural and international organization with offices in four countries and a team of experts with diverse backgrounds and competencies, including microbiology, virology, global health, emerging infectious disease nursing, medical anthropology, field epidemiology, clinical research, and health information systems.”

One of those offices just happens to be located in Kyiv, Ukraine, which the company dubs “a gateway to Eastern Europe”.

America, and Eastern Europe.

Our office and available laboratory space in Kinshasa, Democratic Republic of Congo, hosted within the national Ministry of Health biomedical reference lab (INRB), provides a valuable springboard for scientific initiatives. We also maintain an office in Sierra Leone and a large collaborative network in Cameroon, with experts based at the Cameroon military health research center (CRESAR), as well as within various collaborating non-governmental organizations in country. Labyrinth's global reach is further expanded through our office in Kyiv, Ukraine, a gateway to Eastern Europe. Built on successful implementation of projects that span Ukraine, Armenia, and Azerbaijan, we engage Ministries and scientists in collaborative pursuits throughout the region.

Karen Saylor, PhD, who co-founded Labyrinth Global Health, has allegedly worked in the international public health field for over a decade and has spent many years living in Africa establishing global surveillance networks, “working with partners to improve Global Health policy on infectious disease detection, response, and control”.

At Labyrinth, Dr. Saylor specialises in studies that aim to understand and mitigate biological and behavioural risk of disease transmission. Dr. Saylor worked with Oxford University Clinical Trials Network in Vietnam on zoonotic disease surveillance research and continues to coordinate with regional partners on emerging outbreaks in animal and human populations.

But who are the partners that Dr Karen Saylor and Labyrinth Global Health choose to work with? They are none other than the ‘Eco Health Alliance’ and ‘Metabiota’.

Launched in 2009 and funded by USAID, PREDICT was an early warning system for new and emerging diseases in 21 countries. It was led by the University of California's ("UC") Davis One Health Institute (<https://ohi.vetmed.ucdavis.edu/programs-projects/predict-project>) and core partners included EcoHealth Alliance ("EHA") (<https://www.ecohealthalliance.org/program/predict>), Metabiota, Wildlife Conservation Society, and Smithsonian Institution, and as we've just revealed; Labyrinth Global Health. PREDICT was a forerunner of the more ambitious Global Virome Project.

The USAID [describes PREDICT](https://ohi.vetmed.ucdavis.edu/programs-projects/predict-project) (<https://ohi.vetmed.ucdavis.edu/programs-projects/predict-project>) as having made "significant contributions to strengthening global surveillance and laboratory diagnostic capabilities for both known and newly discovered viruses within several important virus groups, such as filoviruses (including ebolaviruses), influenza viruses, paramyxoviruses, and coronaviruses".

Here's one of the many studies published by Eco Health Alliance, Metabiota and Labyrinth Global Health proving the connection –

PREDICT partnered with the non-profit Eco Health Alliance (EHA) to carry out its 9-year effort to catalogue hundreds of thousands of biological samples, “including over 10,000 bats (<https://www.latimes.com/science/story/2020-04-02/coronavirus-trump-pandemic-program-viruses-detection>).” A PREDICT-funded 2015 study (<https://www.ncbi.nlm.nih.gov/sites/ppmc/articles/PMC4416284/>) on “diversity of coronavirus in bats” also included Peter Daszak, president of EHA, among its participants.

Eco Health Alliance is listed as a partner of the Wuhan Institute of Virology (“WIV”) on archived pages of its website and was mentioned as a one of the institute’s “strategic partners” by the WIV’s Deputy Director General in 2018.

Notably, the relationship between the WIV and the American Biodefence establishment was advanced by EHA policy advisor, David R. Franz, former commander at US bioweapons lab at Fort Detrick.

WIV’s Dr. Shi Zhengli, a.k.a. “Batwoman,” had also worked with EHA’s Daszak on bat-related studies. As far back as 2005, Daszak and Zhengli were conducting research on SARS-like coronaviruses in bats. Several PREDICT-funded studies on SARS-like coronaviruses and Swine Flu count with both Zhengli’s and Daszak’s contributions. Perhaps the most noteworthy of these is a 2015 PREDICT and NIH-funded study she co-authored entitled: ‘*A SARS-like cluster of circulating bat coronaviruses shows potential for human emergence*’ (<https://pubmed.ncbi.nlm.nih.gov/26552008/>).

Meanwhile, Nathan Wolfe (https://en.wikipedia.org/wiki/Nathan_Wolfe) is the founder of Metabiota and non-profit Global Viral (<https://www.globalviral.org/nathan-wolfe>). He spent over eight years conducting biomedical research in both sub-Saharan Africa and Southeast Asia. Unsurprisingly, Wolfe is a World Economic Forum Young Global Leader (<https://www.weforum.org/people/nathan-d-wolfe>). More notably, since 2008 he had been a member of DARPA’s DSRC (<https://explorecourses.stanford.edu/instructor/ndwolfe>), Defence Science Research Council, until it was disbanded (<https://www.science.org/content/article/what-else-makes-darpa-tick>).

All of these people and organisations have been working for at least the last decade studying coronaviruses and helping to set up Biolabs in Ukraine. All using US Department of Defense funds to do so. You can read much more about this [here](https://expose-news.com/2022/03/17/metabiota-links-biolabs-to-the-pentagons-dtra/) (<https://expose-news.com/2022/03/17/metabiota-links-biolabs-to-the-pentagons-dtra/>), [here](https://expose-news.com/2022/03/18/ukraine-biolabs-and-connections-btw-metabiota-and-ecohealth/) (<https://expose-news.com/2022/03/18/ukraine-biolabs-and-connections-btw-metabiota-and-ecohealth/>) and [here](https://expose-news.com/2022/03/20/biolabs-who-are-metabiotas-investors/) (<https://expose-news.com/2022/03/20/biolabs-who-are-metabiotas-investors/>).

Putting the biolabs in Ukraine to one side for now, let's return to the subject of Covid-19. If the US Government was funding Covid-19 research before Covid-19 was publicly known to exist then this suggests they either knew Covid-19 existed naturally, or they were involved in constructing this virus in a lab.

But if the contract evidence isn't enough for you to come to this conclusion (it should be), then perhaps coupling it with evidence that the US National Institute of Allergy & Infectious Diseases' (NIAID), and Moderna had a coronavirus candidate in December 2019 will be.

A confidentially agreement which can be viewed [here](https://s3.documentcloud.org/documents/6935295/NIH-Moderna-Confidential-Agreements.pdf) (<https://s3.documentcloud.org/documents/6935295/NIH-Moderna-Confidential-Agreements.pdf>), states that providers 'Moderna' alongside the 'National Institute of Allergy and Infectious Diseases' (NIAID) agreed to transfer 'mRNA coronavirus vaccine candidates' developed and jointly-owned by NIAID and Moderna to recipients 'The University of North Carolina at Chapel Hill' on the 12th December 2019.

PUBLIC HEALTH SERVICE

MATERIAL TRANSFER AGREEMENT

This Material Transfer Agreement ("MTA") has been adopted for use by the National Institutes of Health, the Food and Drug Administration and the Centers for Disease Control and Prevention, collectively referred to herein as the Public Health Service ("PHS") in all transfers of research material (Research Material) whether PHS is identified below as its Provider or Recipient.

Providers: *National Institute of Allergy and Infectious Diseases, National Institutes of Health ("NIAID")*
ModernaTX, Inc ("Moderna")

Recipient: The University of North Carolina at Chapel Hill

1. Provider agrees to transfer to Recipient's Investigator the following Research Material:

mRNA coronavirus vaccine candidates developed and jointly-owned by NIAID and Moderna.

Found on page 105 of the agreement

25

The material transfer agreement was signed the December 12th 2019 by Ralph Baric, PhD, at the University of North Carolina at Chapel Hill, and then signed by Jacqueline Quay, Director of Licensing and Innovation Support at the University of North Carolina on December 16th 2019.

All of these signatures were made prior to any knowledge of the alleged emergence of the novel coronavirus. It wasn't until December 31st 2019 that the World Health Organisation (WHO) became aware of an alleged cluster of viral pneumonia cases in Wuhan, China. But even at this point they had not determined that an alleged new coronavirus was to blame, instead stating the pneumonia was of "unknown cause".

INFORMATION

31 Dec 2019

WHO's Country Office in the People's Republic of China picked up a media statement by the Wuhan Municipal Health Commission from their website on cases of 'viral pneumonia' in Wuhan, People's Republic of China.

The Country Office notified the International Health Regulations (IHR) focal point in the WHO Western Pacific Regional Office about the Wuhan Municipal Health Commission media statement of the cases and provided a translation of it.

WHO's Epidemic Intelligence from Open Sources (EIOS) platform also picked up a media report on ProMED (a programme of the International Society for Infectious Diseases) about the same cluster of cases of "pneumonia of unknown cause", in Wuhan.

Several health authorities from around the world contacted WHO seeking additional information.

- A novel coronavirus emerged in Wuhan in December 2019.
- The world did not get to hear about this novel coronavirus until early January 2020.
- The world did not know this novel coronavirus was called Covid-19 until February 2020, when the World Health Organization officially named it so.
- The US Department of Defense awarded a contract for Professional, Scientific, and Technical Services to [Black & Veatch Special Projects Corp](#), which is allegedly “a global engineering, procurement, consulting and construction company specialising in infrastructure development”.
- That contract involved a Biological threat reduction program in Ukraine.
- As part of this larger contract, another contract was awarded to Labyrinth Global Health for ‘COVID-19 Research’ on 12th November 2019.
- This was awarded at least one month before the alleged emergence of the novel coronavirus, and three months before it was officially dubbed Covid-19.
- Labyrinth Global Health works alongside the ‘Eco Health Alliance’, and ‘Metabiota’, and participated in the USAID PREDICT program. All of these people and organisations have been working for at least the past decade studying coronaviruses and helping to set up Biolabs in Ukraine. All using US Department of Defense funds to do so.
- Information found [here](#) points to Eco Health Alliance having a hand in creating the Covid-19 virus.
- Information found [here](#) points to Moderna having a hand in creating the Covid-19 virus.
- ‘Moderna’, alongside the ‘National Institute of Allergy and Infectious Diseases’ (NIAID) agreed to transfer ‘mRNA coronavirus vaccine candidates’ developed and jointly-owned by NIAID and Moderna, to recipients ‘The University of North Carolina at Chapel Hill’ on the 12th December 2019.

What does all this point to? That’s for you to ponder and decide. But we promise you there is much more to come on the above...

My uncle and I make 109k per second only of the gas that continues to flow through the ucro-Nazi pipelines. I never thought I'd be able to do it, but my senior partners at BlackRock do 1,000 a second, and they convinced me to try the big game with ucro Nazi. And when, along with them and the other respected Western and Eastern partners, we introduce the new world order, under the pretext and in response to deepening created crises, we will be making crazy CBDC every millisecond. For details: I and uncle...

Many of us had covid in July 2019. Many. Why is this being ignored. A very bad flu with excessive coughing and lung congestion requiring antibiotics. Lasting over three weeks. I was on a cruise in the No. Atlantic when a man coughing all evening spread it to me. Many others were infected. On return home, still coughing and congested went to GP clinic and told “we are seeing a lot of weird viruses right now”. So covid was around much longer than this article mentions. Were people dying? Don’t think so. But then they weren’t intubating, using remdesivir and telling people to stay home til their lips turned blue.

Yes, John, but..but..but... you can see for yourself that the Americans have mixed some terrible potions in the dark ukrolabs to spread the dangerous virus later. You see? How do the two combine?

So, also and the Russians are right. And also for the fact that they responded to covid almost exactly the same way as anywhere else: with mandatory vaccinations for certain sectors and professions, a few lockdowns, and, of course, with the song "covid amplified the digital transformation," really amplified it.

Here is a little part of the brave russian battle with ukro-american evil covid.

<https://vigilantcitizenforums.com/threads/covid-19-lockdown-doctors-speak-out-n-w-o-great-reset-4ir-5g-digital-id-vaccine-food-supply-tracking-tracing.7305/post-563554>

Between 2015-2019, a five year period, between 27million – 45million people died from influenza/flu. In 2020, there were only around 150,000 influenza/flu deaths and 30 million covid deaths. I'll let you work it out.

And Trump signed the CARES Act in January 2019 too or Jan 2020. The BIGGEST spending bill in the history of the world and it received al IST zero news coverage .It s the Corona virus Aid recovery economic stimulus Something like that. Regardless it must have been transiting through Congress for at least months to be at that stage for him to sign it .Most likely about a year .

Help me create a cure for coronavirus from my immunity

I have the strongest t-cell immunity How did I achieve such immunity. I eat only healthy food 5 times a day.My mother is an old-age pensioner cook by profession.I do not work due to disability. I don't do sports due to illness.I 'm not toughening up .

My t-immunity has been proven by five immunograms where t-cells are exceeded. T-cells are exceeded because I suffer from two rare internal incurable diseases 1 the disease is called diabetes insipidus the second disease is called olivopontoceribral degeneration with cerebellar atrophy.

Five immunograms, the result of an analysis for autoimmune diseases with a detailed description and a consultation with a local immunologist. I will send it in 3 PDF files if necessary

My medicine consists of monoclonal antibodies, they are produced from immune cells and are perfectly artificially cloned. Monoclonal antibodies are the strongest weapon against the coronavirus. My medicine is free, treats with 100% effectiveness and any coronavirus mutation An analogue of my medicine was tested on former US President Donald Trump, he was cured within 7 days. So my medicine doesn't need to be tested.

the internet, t-cell immunity lets in the virus and then fight it

You don't want to live in a lockdown like at the beginning of 2020 you lived without a vaccine and the virus did what it wanted, but you can make a vaccine medicine out of me within a few days.

I have been ill at least 3 times in 12 months. For the first time in severe form in 3 days. Symptoms cough, sneezing, runny nose, fever and pain in the head and muscles. He was ill 2 and 3 times asymptotically. I found out through the antibody test result.

Had hepatitis B in 3 months or less. He was cured without taking medication. Got infected by accident. He had two fatal illnesses in a super mild form.

I received 7 invitations from the Kazan Regional Clinical Hospital from the Immunological Center. I am incapacitated and my guardian is categorically against this trip. Help me to go to Kazan.

I would advise you to hurry up on the second fatal illness I have a constant deterioration. I feel like I'm going to die soon and I won't be able to save humanity

Can you provide evidence of any sort that a virus exists naturally in nature? As yet, no body has been able to.

The Latin word "VIRUS", translates to toxin/poison in English.

Information on this global fraud and crimes against humanity circulate DAILY but not one thing has happened to these criminals. It is not like this is small potatoes. This fraud is global and involved government, government agencies, doctors, scientists, hospitals and so much more. And many have proven their crimes but still not a dang thing in any country happens to hold these people accountable.
